**[ricky@compasssleep.com](mailto:ricky@compasssleep.com)**

Compass Sleep Products was incorporated in 2022 as a Florida for profit corporation. Compass is a Florida mattress manufacturer committed to producing quality mattresses and creating good paying jobs. In addition to manufacturing quality bedding products, Compass's services include a sewing equipment repair shop and a customer service center. As the General Manager, Ricky Riley brings 15 years mattress production experience to this newly created manufacturing company. His contacts throughout the industry led to Compass being selected as the exclusive Florida supplier for the SpringAir® mattress company, one of the nation's largest mattress distributors. Creating more than 60 full-time jobs in 2023, Compass will be a major employer in rural Madison County.
